3693

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over US Pat 7236950.

The reference teaches a consolidated billing method comprising:  
generating account information related to provisioning a communication service from a third party network for a customer;  
receiving third party information from the third party network into the billing system  
processing the third party information to identify the account information and determine third party charges related to usage of the third party network by the customer;  
calculating a single invoice for the customer that includes third party charges; and  
in the billing system, generating the single invoice (paragraphs 17 and 20).

The reference fails to teach of the following:

receiving network information from the communication network into the billing system;  
and, processing the network information to determine network charges related to usage of the communication network by the customer.

It would have been obvious for one skilled in the art at the time to have used the method of the primary reference for telecommunication services/equipment charges in response to an order (wherein the order has a discount) as motivated the advantages of a single bill.

Any inquiry concerning this communication or earlier communications from the examiner should be
